Creation - THE KEY TO OUR ECONOMIC GROWTH

Jobs are the cornerstone of monetary and social development. The impact of excessive tiers of unemployment is devastating, ensuing in poverty, social exclusion, inequality, crime and social instability in the world. The advent of jobs has been a challenge globally; in particularly Nigeria unemployment rates have escalated to a new height of 30 percent, in accordance to a November file by way of the National Bureau of Statistics which is projected to reach 33.5 percentage by means of 2020, says the federal government. However, to clear up this challenge, Nigeria needs to create four million new jobs per year to reverse the poor tendencies for our economy to grow.

The question is "can we maintain our leaders accountable"? Despise that our leaders do not channel their attention to what needs to be done, we the Nigerians, the folks have our roles to play in solving this virus that is killing our economy, and we need a new horizon of tremendous attitude that can attune our idea towards the right direction. Also the variety of orientation we provide our teens should assist to produce an effective mind-set that can make them assume of adding to the society as an alternative than taking from it. Schools, Churches, Mosques and other social gathers must motivate and promote entrepreneurship amongst their students and members. Hence, these can be executed through organizing a semi-skilled and skilled centers for their members; whereby volunteers literate among them can train the illiterate ones on Art/Crafts, Technical subjects and the likes; while the school need to inspire extra research work that we provide room for brainstorming and intellectual workouts that will lead to creation of goods or service that is wished through the public.

Job creation is the key to this economic disaster in Nigeria, if we persons attuned our initiative into growing one another technically and educationally, encouraging and aiding one another hence Nigeria will be amongst the excellent country. God Bless Nigeria and God bless the reader
